KODAK DP1050 *Ultra* Digital Projector

Simply Brilliant. Get incredible XGA resolution with exceptionally rich color and amazing detail. Using Kodak's exclusive Image Manager to quickly and easily select the very best projection for your presentation. You simply push a button to tell us what you are projecting – photos, graphics or spreadsheets – and we do the rest. Outstanding colour reproduction that only Kodak can deliver. With 650 lumens, it projects an *ultra bright* image that stands out even in a well-lit room.

FEATURES / BENEFITS

• Built To Travel

The KODAK DP1050 is just under 4.5 kg and has an extra-small footprint – about the size of most laptops. With colour-coded cables set up is easy. Travelling internationally? The DP1050 does not need a bulky voltage converter.

• Ultra Bright - Details Shine Through

The DP1050 provides vibrant XGA (1024 x 768) resolution. The true 650 ANSI lumens brightness delivers crisp, easy-to-read text and makes your photos and graphics colourful and bright. Our special 2,000-hour cool-running lamp stays bright even if this projector runs 8 hours a day for nearly 8 months.

• Incredible Pictures

The DP1050 uses award-winning Digital Light Processing (DLP) technology to provide vivid, high resolution presentations with true-to-life reproduction of pictures, graphics, text and full-motion video.

• 1.5x Zoom

Quickly and easily enlarge or reduce your projected image. Allows for easy set-up and best use of limited meeting space.

• Kodak's Exclusive Image Manager

Push the button and we'll do the rest. We've made it so easy to get the best possible result – whatever you want to project. Kodak is the obvious choice for pictures with stunning clarity and realistic colour.

• Powerful Control At Your Fingertips

Easily control the projector and your laptop with our powerful remote. Just a few simple clicks allow you to customise the „zap“ buttons on the remote. Switch from your presentation to another application, or move back to the beginning of a section. With the touch of a button, turn the remote into a pointing device. Easy to use, plus extra control and options for the advanced presenter.

• TV Tuner

The DP1050 has an optional TV tuner that lets you connect directly to broadcast signals from a cable or satellite receiver.

• Intuitive Menu

An easy-to-use menu system allows control of all functions of the projector with a click of your mouse.

• Super Sound

The DP1050 features a high-performance 10-watt loudspeaker with an optional connection to your external sound system.

• KODAK DP1050 Presentation Kit (DP1050 Projector + Digital Camera)

Customise your presentations in minutes. Take a digital picture of your client or their product and put it into your presentation on the spot with a KODAK Digital Camera. We've combined our new DP1050 with one of our award-winning cameras to provide a fast and easy solution. You can even plug the camera directly into your projector to instantly display your pictures. The result? Bigger, better and brighter pictures. With the same exceptional quality you've come to rely on from Kodak. See your dealer for details.
